December 2023

NWN meets nightly at 22:00 on 3567 Kc

Hello gang,

We're getting into winter condx and a solar max which means interesting times in the evening on 80m. I came loaded for bear tonight due to the CME and to my surprise, didn't need it. Everyone sounded really good here.

Heard my own echo the other night during NWN and thereafter. At first, I thought it was a problem with my rig. Turned out it was *my own signal coming back to me longpath*. Wow!

Happy Holidays everyone, try to stay warm!
