

# NWN Newsletter #6

January 2024

NWN meets nightly at 22:00 on 3567 Kc

Hello gang,

Happy New Year! Hope everyone had a fun and safe holiday. Winter condx are in full swing now with the band going long nearly every night.

---

QNI	248
QTC	40

Lorne VE6AWI has made a return! Hope to see more of him!

We've made some good QNI numbers even though the band has been in the tank most nights last month. It's affecting RN7 and WAN as well. Thankfully some of us are far enough away to be strong and can relay when needed.

If anyone is interested in becoming an NCS, please contact me - Patrick NG7I [sbus1313@gmail.com](mailto:sbus1313@gmail.com) and I'll get you on the schedule.

We had **1,411** QNI with **249** QTC in 2023. Not bad numbers at all considering we only got started in July.

Lee N7KC has made every single net except one back in July. Wow! Lee and Dan are tied for Dec.

...

If you're not in the Northwest, just think of NWN as "Net Without a Name" -hi

Best 73,  
Patrick NG7I
