Roster is unchanged for July. The NCS Script has an added Q code for those that find it helpful.

Working on the *Standards and Practices Document* as I can find time. It's an outline for WRN regarding how NWN does things. If anyone would like to collaborate or has suggestions for content, I'm all ears. Once I get a working draft together, I'll post it on our [website](#) and send everyone a copy for perusal.

If anyone is interested in becoming an NCS, please contact me - Patrick NG7I [sbus1313@gmail.com](mailto:sbus1313@gmail.com) and I'll get you on the schedule.

If you're not in the Northwest, just think of NWN as "Net Without a Name" -hi
