

# NWN Newsletter #17

April 2025

NWN meets nightly at 22:00 Pacific on 3560 Kc

Hello gang,

<u>CALL</u>	<u>QNI</u>
NI6A	18
K6APW	31
N0DA	31
K7EP	4
W7GB	31
NG7I	30
W7IZ	15
N7KC	31
WB4SPB	18
N7TB	4
KB7WDP	31
WB7WFL	22
K6YR	12

QNI	278
QTC	64!

The rogue beacon is still on our net frequency. I haven't escalated this to any governing body yet as it's not really been an encumbrance to our operation. If anything, it can be a propagation beacon for our benefit.

There were two times when we almost had a full house in March! We haven't had a full house in quite a while and I'm always keen on when we can reach that milestone again. That said, the daily stats have been improving. We were 8.97 average QNI last month. That's the highest we've had since Sept 2023 with a 9.33 average QNI. This month, however, was the highest QTC # we've ever had with 64 pieces of traffic!

Remember, if you go looking for the new roster or newsletter on the [website](#), hit your browser's refresh button to get the latest links and updates.

If the scheduled NCS doesn't show up, feel free to take it. If they should show up later, you can always QNG if you so choose.

If anyone is interested in becoming an NCS, please contact me - Patrick NG7I [sbus1313@gmail.com](mailto:sbus1313@gmail.com) and I'll see about getting you on the schedule. *If you want to try it, just ask.* The existing guys might just let you have their slot! If it turns out to be too much then we'll take it back no problems.

...

Best 73,  
Patrick NG7I

If you're not in the Northwest, just think of NWN as "Net Without a Name" -hi
