

NWN Newsletter #19

June 2025

NWN meets nightly at 22:00 Pacific on 3560 Kc

Hello gang,

Jim K6APW is back at his QTH in 6 country.

Propagation has been good. Even with Solar storms and the occasional shimmery signals, I haven't had to QRO or QNG from my QTH at all. Famous last words -hi

We had 7 more QNI's than April but 7 fewer QTC. Still haven't had a full house but we've gotten close a few times!

Remember, if you go looking for the new roster or newsletter on the [website](#), hit your browser's refresh button to get the latest links and updates.

If the scheduled NCS doesn't show up, feel free to take it. If they should show up later, you can always QNG if you so choose.

QNI	271
QTC	41

If anyone is interested in becoming an NCS, please contact me - Patrick NG7I sbus1313@gmail.com and I'll see about getting you on the schedule. *If you want to try it, just ask.* The existing guys might just let you have their slot! If it turns out to be too much then we'll take it back no problems.

...

If you're not in the Northwest, just think of NWN as "Net Without a Name" -hi

Best 73,
Patrick NG7I
