We'll still meet at 22:00 Pacific local time after we turn our clocks ahead on the 9th. The roster also reflects this and gives the zulu times as well.

Apologies for missing my NCS slot on the 20th. I was exhausted and slept right thru it in my chair. I get up for work around 04:30 and work 10 hour days plus being on-call and the weather has made work a challenge lately. 4 more years and I won't have to work anymore – hi!

If the scheduled NCS doesn't show up, feel free to take it. If they should show up later, you can always QNG if you so choose.

If anyone is interested in becoming an NCS, please contact me - Patrick NG7I sbus1313@gmail.com and I'll see about getting you on the schedule. *If you want to try it, just ask.* The existing guys might just let you have their slot! If it turns out to be too much then we'll take it back no problems.

If you're not in the Northwest, just think of NWN as "Net Without a Name" -hi
