Jim K6APW will be at his La Pine, Oregon QTH for a few months, so he'll be K6APW/7. The roster has been updated to reflect this.

Propagation has been good. I haven't had to use the [SDR](#) at all in the last month. That rogue beacon is doing a good job at letting me know how the band is doing too.

Remember, if you go looking for the new roster or newsletter on the [website](#), hit your browser's refresh button to get the latest links and updates.

If the scheduled NCS doesn't show up, feel free to take it. If they should show up later, you can always QNG if you so choose.

If anyone is interested in becoming an NCS, please contact me - Patrick NG7I sbus1313@gmail.com and I'll see about getting you on the schedule. *If you want to try it, just ask.* The existing guys might just let you have their slot! If it turns out to be too much then we'll take it back no problems.

...

If you're not in the Northwest, just think of NWN as "Net Without a Name" -hi

Best 73,
Patrick NG7I
