

NWN Newsletter #22

September 2025

NWN meets nightly at 22:00 Pacific on 3560 Kc

Hello gang,

<u>CALL</u>	<u>QNI</u>
NI6A	16
K6APW	31
N0DA	30
K7EP	3
W7GB	30
NG7I	28
W7IZ	13
N7KC	31
WB4SPB	26
N7TB	1
KB7WDP	24
WB7WFL	10
K6YR	10
<hr/>	
QNI	253
QTC	61

Stats: QNI's were lower last month than in July but the QTC was higher. I'm sure QNI's will increase as the weather starts getting cooler and we're inside more. My other net attendance was dismal through the summer because of so much going on.

We should finally be getting fiber internet here later this week which means I'll be able to QRO on 80m again. For the last year anything over 150w on 80m will shut down the DSL service we have.

Thanks again to everyone for continuing to make NWN the success that it is. Both Jim and Lee hit **every** NWN session in August! Looking at the YTD stats, Lee hasn't missed a single NWN session this year!

If anyone is interested in becoming an NCS, please contact me - Patrick NG7I sbus1313@gmail.com and I'll see about getting you on the schedule. *If you want to try it, just ask.* The existing guys might just let you have their slot! If it turns out to be too much then we'll take it back no problems.

...

If you're not in the Northwest, just think of NWN as "Net Without a Name" -hi

Best 73,
Patrick NG7I
