Stats: QNI's were higher this month than last, by a whopping 34 check-ins, with QTC's up by 3. Average daily checkins went from 7.71 to 8.06. February was also a shorter month which accounts for a dramatic QNI increase in March.

Condx continue to improve with only a few nights needing some power and no nights requiring the SDR.

Lee N7KC hit **every** NWN session in March. Our best turnout was on the 21st with 11 QNI's.

If anyone is interested in becoming an NCS, please contact me - Patrick NG7I sbus1313@gmail.com and I'll see about getting you on the schedule. *If you want to try it, just ask.* The existing guys might just let you have their slot! If it turns out to be too much then we'll take it back no problems.

...

If you're not in the Northwest, just think of NWN as "Net Without a Name" -hi

Best 73,
Patrick NG7I
